Molecular Basis of Disease

Vol. 1096, 1991

Cumulative Contents

Editorial vii

Announcement ix

Reviews

Structural aspects of pathology in Alzheimer's disease
R.A. Crowther (U.K.) 1

Molecular interactions between HIV and the T lymphocyte
R.E. Phillips (U.K.) 10

Regular Papers

The calcium homeostasis and the membrane potential of cultured muscle cells from patients with myotonic dystrophy
A.E.M. Jacobs, A.A.G.M. Benders, A. Oosterhof, J.H. Veerkamp, P. Van Mier, R.A. Wevers and E.M.G. Joosten (The Netherlands) 14

Homology of the B50 murine melanoma antigen to the Ro/SS-A antigen of human systemic lupus erythematosus and to calcium-binding proteins
D.M. Gersten, K.E. Bijwaard, L.W. Law and V.J. Hearing (U.S.A.) 20

Molecular heterogeneity in McArdle's disease
S.M. McConchie, J. Coakley, R.H.T. Edwards and R.J. Beynon (U.K.) 26

Human erythrocyte Band-3 has an altered N terminus in malaria-resistant Melanesian ovalocytosis
G.L. Jones, H.M.L. Edmundson, D. Wesche and A. Saul (Australia, Papua New Guinea) 33

Arachidonic acid metabolism in fibroblasts from patients with peroxisomal diseases: response to interleukin 1
C.W. Tiffany, S. Hoefler, H.W. Moser and R.M. Burch (U.S.A.) 41

C1q, a collagen-like complement subcomponent, in dermatosparactic cattle: its extracellular modification is not affected by lack of procollagen N-terminal proteinase (pN-proteinase)
K. Yonemasu, T. Sasaki, Y. Dohi, C.M. Lapière and B. Nusgens (Japan, Belgium) 47

Non-selective cation and dysfunctional chloride channels in the apical membrane of nasal epithelial cells cultured from cystic fibrosis patients
M. Jorissen, J. Vereecke, E. Carmeliet, H. Van den Berghe and J.-J. Cassiman (Belgium) 52

Hemoglobin Calais [β 76 (E20) Ala → Pro]: a hemoglobin variant with decreased intrinsic oxygen affinity
H. Wajcman, J. Kister, M. Marden, B. Bohn, Y. Blouquit, J. Descamps, M. Goudemand, C. Poyart and F. Galacteros (France) 60

Comparable interaction of doxorubicin with various acidic phospholipids results in changes of lipid order and dynamics
F.A. De Wolf, M. Maliepaard, F. Van Dorsten, I. Berghuis, K. Nicolay and B. De Kruijff (The Netherlands) 67

Reports

Copper ion-dependent oxy-radical mediated DNA damage from dihydroxy derivative of etoposide
B.K. Sinha, W.M. Antholine, B. Kalyanaraman and H.M. Eliot (U.S.A.) 81

Isolation and characterization of cardiac amyloid in familial amyloid polyneuropathy type IV (Finnish): relation of the amyloid protein to variant gelsolin
C.P.J. Maury (Finland) 84

Information for Contributors vii

Review

The biochemistry of *HEXA* and *HEXB* gene mutations causing G_{M2} gangliosidosis
D.J. Mahuran (Canada) 87

Regular Papers

Localization of the 5-phospho-α-D-ribosyl-1-pyrophosphate binding site of human hypoxanthine-guanine phosphoribosyltransferase
D.T. Keough, B.T. Emmerson and J. de Jersey (Australia) 95

Nuclear magnetic resonance studies of blood plasma and urine from subjects with chronic renal failure: identification of trimethylamine-*N*-oxide
J.D. Bell, J.A. Lee, H.A. Lee, P.J. Sadler, D.R. Wilkie and R.H. Woodham (U.K.) 101

Development of fluorescence and cross-links in eye lens crystallin by interaction with lipid peroxy radicals
K. Kikugawa, T. Kato, M. Beppu and A. Hayasaka (Japan) 108

Energy status of cells lacking dystrophin: an in vivo/in vitro study of *mdx* mouse skeletal muscle
J.F. Dunn, S. Frostick, G. Brown and G.K. Radda (U.K.) 115

Genetically acquired diabetes: adipocyte guanine nucleotide regulatory protein expression and adenylate cyclase regulation
D. Strassheim, T. Palmer and M.D. Houslay (U.K.) 121

Altered G-protein expression and adenylate cyclase activity in platelets of non-insulin-dependent diabetic (NIDDM) male subjects
C. Livingstone, A.R. McLellan, M.-A. McGregor, A. Wilson, J.M.C. Connell, M. Small, G. Milligan, K.R. Paterson and M.D. Houslay (U.K.) 127

Enzymological characterization of a putative canine analogue of primary hyperoxaluria type 1
C.J. Danpure, P.R. Jennings and J.H. Jansen (U.K., Norway) 134

Changes in fibronectin staining in the human lens during ageing and cataractogenesis
M.A. Babizhayev and M.W. Brodskaya (U.S.S.R.) 139

Skin-derived antileukoproteinase (SKALP), an elastase inhibitor from human keratinocytes. Purification and biochemical properties
J. Schalkwijk, C. De Roo and G.J. De Jongh (The Netherlands) 148

Lipid peroxide and transition metals are required for the toxicity of oxidized low density lipoprotein to cultured endothelial cells
M. Kuzuya, M. Naito, C. Funaki, T. Hayashi, K. Asai and F. Kuzuya (Japan) 155

Neutral lipid storage disease: a possible functional defect in phospholipid- linked triacylglycerol metabolism
M.L. Williams, R.A. Coleman, D. Placezk and C. Grunfeld (U.S.A.) 162

Progestin stimulation of thymidine kinase in the human breast cancer cell line T47D
M.R. Moore, L.D. Hathaway and J.A. Bircher (U.S.A.) 170

Report

Identification of 'cystic fibrosis protein' as a complex of two calcium-binding proteins present in human cells of myeloid origin
C. Barthe, C. Figarella, J. Carrère and O. Guy-Crotte (France) 175

Editorial *v*

Regular Papers

Disposition and metabolism of 2-fluoro-β-alanine conjugates of bile acids following secretion into bile
R. Zhang, S. Barnes and R.B. Diasio (U.S.A.) 179

DNA methylation changes in human testicular cancer
P. Peltomäki (Finland) 187

Tau-related protein present in paired helical filaments has a decreased tubulin binding capacity as compared with microtubule-associated protein tau
A. Nieto, I. Correas, C. López-Otín and J. Avila (Spain) 197

Altered erythrocyte protein kinase C activity and membrane protein phosphorylation in chronic myelogenous leukemia
M. Kundu, J. Basu, M. Fujimagari, P. Williamson, R.A. Schlegel and P. Chakrabarti (India, U.S.A.) 205

Glutathione *S*-transferases in normal and malignant human colon tissue
M.L. Clapper, S.J. Hoffman and K.D. Tew (U.S.A.) 209

Effect of calpain inhibitors on the invasion of human erythrocytes by the parasite *Plasmodium falciparum*
P. Olaya and M. Wasserman (Colombia) 217

Enhancement of carbon tetrachloride-induced liver injury by a single dose of ethanol: proton magnetic resonance imaging (MRI) studies in vivo
R.A. Towner, L.A. Reinke, E.G. Janzen and S. Yamashiro (Canada, U.S.A.) 222

Genetic evidence that the putative receptor binding domain of apolipoprotein B (residues 3130 to 3630) is not the only region of the protein involved in interaction with the low density lipoprotein receptor
A.M. Dunning, R. Houlston, J. Frostegård, J. Revill, J. Nilsson, A. Hamsten, P. Talmud and S. Humphries (U.K., Sweden) 231

The effect of pravastatin on serum cholesterol levels in hypercholesterolemic diabetic rabbits
C.M. Arbeeny and K.E. Bergquist (U.S.A.) 238

Novel muteins of human tumor necrosis factor α
R. Ito, H. Matsumoto, K. Uchida, T. Kubo, Y. Tsukii, T. Endo and A. Kaji (Japan, U.S.A.) 245

Modifications of low-density lipoprotein induced by arterial proteoglycans and chondroitin-6-sulfate
G. Camejo, E. Hurt, O. Wiklund, B. Rosengren, F. López and G. Bondjers (Sweden, Venezuela) 253

Rapid Report

Malaria and ovalocytosis – molecular mimicry?
A. Husain-Chishti and P. Ruff (U.S.A.) 263

Regular Papers

The calpastatin defect in hypertension is possibly due to a specific degradation by calpain
F. Salamino, B. Sparatore, R. De Tullio, R. Pontremoli, E. Melloni and S. Pontremoli (Italy) 265

A ^{15}N-NMR study of isolated brain in portacaval-shunted rats after acute hyperammonemia
K. Kanamori, B.D. Ross, N.A. Farrow and F. Parivar (U.S.A.) 270

Sensitivity and resistance in human metastatic melanoma to the new chloroethylnitrosourea anti-tumor drug Fotemustine
K.U. Schallreuter and J.M. Wood (F.R.G.) 277

Control of mitochondrial ATP synthase in rat cardiomyocytes: effects of thyroid hormone
A.M. Das and D.A. Harris (U.K.) 284

Ultraviolet-treated lipoproteins as a model system for the study of the biological effects of lipid peroxides on cultured cells. III. The protective effect of antioxidants (probucol, catechin, vitamin E) against the cytotoxicity of oxidized LDL occurs in two different ways
A. Negre-Salvayre, Y. Alomar, M. Troly and R. Salvayre (France) 291

Clinical phenotype of Gaucher disease in relation to properties of mutant glucocerebrosidase in cultured fibroblasts
S. Van Weely, M.B. Van Leeuwen, I.D.C. Jansen, M.A.C. De Bruijn, E.M. Brouwer-Kelder, A.W. Schram, M.C. Sa Miranda, J.A. Barranger, E.M. Petersen, J. Goldblatt, H. Stotz, G. Schwarzmann, K. Sandhoff, L. Svennerholm, A. Erikson, J.M. Tager and J.M.F.G. Aerts (The Netherlands, Portugal, U.S.A., Republic of South Africa, F.R.G., Sweden) 301

Apoptosis: a potential role for cytosolic transglutaminase and its importance in tumour progression
C.R.L. Knight, R.C. Rees and M. Griffin (U.K.) 312

Type C Niemann-Pick disease: cellular uncoupling of cholesterol homeostasis is linked to the severity of disruption in the intracellular transport of exogenously derived cholesterol
C.E. Argoff, M.E. Comly, J. Blanchette-Mackie, H.S. Kruth, H.T. Pye, E. Goldin, C. Kaneski, M.T. Vanier, R.O. Brady and P.G. Pentchev (U.S.A., France) 319

Type C Niemann-Pick disease: spectrum of phenotypic variation in disruption of intracellular LDL-derived cholesterol processing
M.T. Vanier, C. Rodriguez-Lafrasse, R. Rousson, N. Gazzah, M.-C. Juge, P.G. Pentchev, A. Revol and P. Louisot (France, U.S.A.) 328

Lysozyme is an ozone-sensitive component of alveolar type II cell lamellar bodies
S.A. Shelley, J.E. Paciga and J.U. Balis (U.S.A.) 338

Targeting of tumor necrosis factor to tumor cells: secretion by myeloma cells of a genetically engineered antibody-tumor necrosis factor hybrid molecule
H.R. Hoogenboom, J.C.M. Raus and G. Volckaert (Belgium) 345

Inhibition of mixtures of surfactant lipids and synthetic sequences of surfactant proteins SP-B and SP-C
J.D. Amirkhanian, R. Bruni, A.J. Waring and H.W. Taeusch (U.S.A.) 355
